- Computer Hardware and Software Architectures
- Logic and Problem Solving

Year 2

- Databases
- Networks and Operating Systems
- Software Engineering
- Emerging Programming Platforms and Technologies
- Professional Issues, Ethics and Computer Law

Year 3

- Advanced Database Systems Development
 - Application Development
 - Project
 - Work Related Learning II
 - Artificial Intelligence
-

Bachelor in **Computer Networking & IT Security**

BSc (Hons) Computer Networking & IT Security

The complexity of networking and the severity of security challenges the world faces today require a background comprised of multiple courses from fundamentals to integrated topics. This program gives students an extensive grounding in traditional network and security protocols, as well as preparation for technologies such as wired and wireless networking, VOIP, virtualization and others only now emerging. London Metropolitan University is a certified Cisco Academy, and one of the very few places in the UK which has been certified by Cisco Systems to provide both CCNA and CCNP training. This will put our graduates ahead by having some of the most sought-after professional qualifications in the industry.

Career Opportunities

Network Administrator | Network Engineer
Information Security Representative
Network & Security Designer | LAN/Wan Specialist
Network Tech Consultant | Ethical Hacker

Year 1

- Information Systems

College Premises

Islington College's premises expand over a very large area surrounded by residential dwellings and situated inwards away from the noise of the city.

There are numerous multi-storeyed buildings named after prominent sites in the UK which contain state-of-the-art lecture theatres and labs for practical learning. Also, we have various recreational sites that include a basketball court, cafeterias, restaurants and more.

Within this concrete haven you will also find that we have nurtured an environment well suited for learning and overall individual growth.

Further Opportunities

Upon completion of London Metropolitan University's Bachelor Degree, you will have numerous options for continuing a Master's (MBA or MSc IT) at Islington College, Kathmandu, other Degree programmes at London Metropolitan University, UK, or any other university around the world.

We have a track record of 98.6% graduate employability in Nepal. The degrees awarded by London Metropolitan University, UK, have received the equivalence by Tribhuvan University, Nepal and thus, you can continue your further studies in Nepal as well.
